I am excited to apply for the Metadata and Cataloging Intern position at The Church of Jesus Christ of Latter-day Saints, as advertised. With a Bachelor of Science in Software Engineering from Brigham Young University-Idaho and a passion for leveraging technology in service of meaningful missions, I am eager to contribute my skills and enthusiasm to your team.

During my academic journey, I have acquired a solid foundation in software development and data management, including proficiency in Python, HTML, CSS, JavaScript, and experience with various software tools and systems. My recent projects, such as developing a Python Flask web application and analyzing housing market data using Pandas, demonstrate my ability to apply analytical thinking and attention to detail to complex problems.

At Pro Moto Billet, I honed my organizational skills and attention to detail while orchestrating invoicing processes and addressing technical issues, which improved operational efficiency. My experience at Rove Pest Control further enhanced my ability to work collaboratively and deliver results in a fast-paced environment, achieving significant increases in customer satisfaction and revenue.

As an LDS missionary in Las Vegas, I developed strong interpersonal and communication skills while managing volunteer teams and teaching English as a second language. These experiences have equipped me with the ability to work effectively with diverse groups and contribute positively to team dynamics.

The opportunity to contribute to the FamilySearch catalog and Digital Library aligns perfectly with my career aspirations and personal values. I am eager to apply my technical skills and passion for detail to provide accurate metadata, edit bibliographic records, and support the digitization of library materials. I am particularly drawn to the chance to work alongside volunteers and staff to research and audit library materials, ensuring high-quality data management practices.

Thank you for considering my application. I am enthusiastic about the opportunity to contribute to your team and support the mission of The Church of Jesus Christ of Latter-day Saints. Please find my resume attached for your review.

Sincerely,

Mosiah Valdez-Bates
